

MIKE BRCIC

FACILITATOR, SPEAKER, ENTREPRENEUR

Key focus: facilitating psychological safety and deeply connected workplaces for small to midsize companies.

In this time of disruption and isolation, we need connection more than ever. As facilitator, researcher and serial entrepreneur, Mike Brcic's work focuses on exploring the science of **human connection and belonging**, helping to create more deeply connected and engaged workplaces.

When Google did an exhaustive study several years ago on the factors that led to the most productive teams, it showed that the #1 contributor was **psychological safety**, or "shared belief held by members of a team that the team is safe for interpersonal risk-taking."

This is hands-down the best thing we've ever done as a company and has completely changed our workplace and culture!

-Jayson Mercurius, JLM
Strategic Talent Partners

I have been trying to find the words to express the gratitude for the gift you shared with our team. It was profound. Hearts were opened and each person felt safe (including myself) to connect in a deeper way than what normally happens. It was evident in each person's eyes as we closed out our session, that something beautiful had happened.
